

## Correction

There was an error in Table 1 of the article “A Comparative Study to Evaluate Epidermal Barrier Integrity of Psoriasis Patients Treated with Calcipotriene/Betamethasone Topical Suspension Versus Betamethasone Dipropionate 0.05% Lotion” by Hashim et al, which was published in the JDD August 2017 issue.<sup>1</sup>

The corrected table is below.

**Table 1. Summary Statistics for Epidermal and Dermal Thickness**  
Values are mean (SD); median [min, max].
